Serving Suggestions

Daiya Shreds are designed for melting which makes them great for use on pizza in casseroles and sauces. Its important to use the optimum amounts of Daiya for best performance. You dont need as much Daiya as you would use daiya cheese

Prep & Cooking Suggestions

For best results when using as a topping, such as the top layer of a lasagna, add Daiya in the last 5 - 10 minutes (depending on temperature). This will yield smooth melting properties without excessive browning. Our shreds sometimes may not look melted because they hold their shape better than melted dairy cheese. If you want to double check, you can run a fork or knife through the shreds.
