Handling Suggestions

Ambient

Serving Suggestions

An important flavoring ingredient in baked goods: cakes, brownies, candy and cookies. One of the primary flavorings in chocolate confectioneries because it tends to reinforce the flavor of chocolate. Also use in puddings, ice cream, coffee and fruit dishes.

Prep & Cooking Suggestions

Unlike pure vanilla extract, Durkee Imitation Vanilla Flavor is very heat stable. Since it will not dissipate, add at the beginning of the cooking or baking process. Substitute Durkee Imitation Vanilla Flavor for pure vanilla extract in baked goods and desserts.
