Full Description: Dark Red Kidney Beans are prepared from dry, mature dark red kidney beans packed with water, salt, sweetener, calcium chloride and disodium EDTA for color retention. The product is packed in hermetically sealed containers and sufficiently processed by heat to assure preservation.

Quality Characteristics:

Quality	Must meet USDA Grade A. Must comply with the US Standards for Grades of Canned Dried Beans, with modifications noted within these specifications.
Color	Must have a good color that is bright and reasonably uniform, typical of the type of bean. The brine has a color typical of the style of pack.
Maturity	Beans must possess a good texture, typical of the product. They may be slightly firm, but the skins must be tender.
Defects	Must be practically free from defects, including loose skins, blemishes, mechanical damage, and extraneous vegetable material.

Physical Characteristics:

Seneca Foods Corporation produces our products to meet a target specification at the time of production. Due to the nature of our commodity products, there are factors such as product maturity, variety, moisture level, and the growing conditions of each particular field which may cause a deviation from the target specification as the product cycles through the shelf life.
